

# HISTORIC PRESERVATION FUND

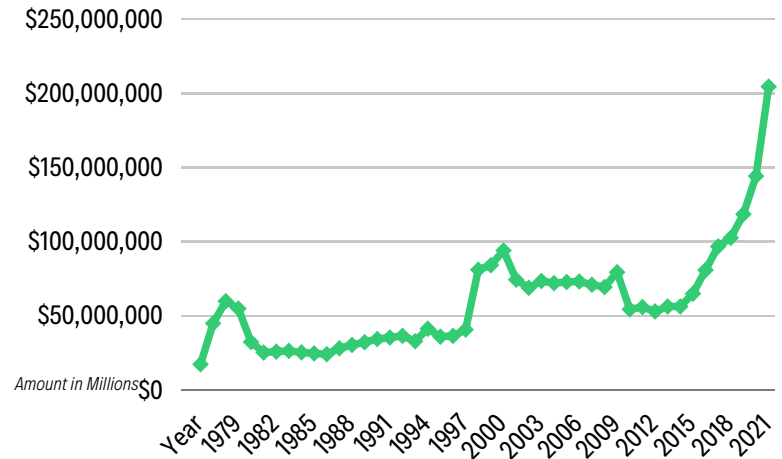

## REAUTHORIZATION IS IMPERATIVE TO THE ONGOING SUCCESS OF THE HPF PROGRAM

- Without program reauthorization, payments to HPF will cease, undermining the importance of this funding
- Full funding at an increased level would improve the ability of SHPOs and THPOs to fulfill their federally mandated requirements under NHPA, create efficiency in project review, and create well-paying jobs
- Authorized & dedicated funding fulfills the promise made by our government decades ago and will have a visible impact on communities nationwide

**IN 1976, CONGRESS AUTHORIZED THE HPF AT \$150M. ADJUSTED FOR INFLATION, THAT AMOUNT EQUALS THE PURCHASING POWER OF \$605,897,634 IN 2023 DOLLARS.**

**FLAT DEPOSITS TO FUND OVER PAST 43 YEARS = DRASTIC DECREASE IN VALUE.**

## HPF APPROPRIATIONS HISTORY

## AN INVESTMENT IN OUR FUTURE...

- This would be the first increase to the HPF’s authorized funding level since the program’s inception in 1976
- Over \$3.4 billion has been deposited, for HPF purposes, but remains unallocated
- The funding levels for FY 22/23 demonstrate the need to significantly increase the authorized amount

**PROGRAM AUTHORIZATION FOR THE HPF IS SET TO EXPIRE THIS SEPTEMBER.**

**WE NEED YOUR HELP TO:**

- 1) PERMANENTLY AUTHORIZE THE HISTORIC PRESERVATION FUND**
- 2) RAISE THE AMOUNT AUTHORIZED TO AT LEAST \$300 MILLION ANNUALLY**
